

WHAT'S NEW IN THE CGA

Shanghai, July 2002

Geographical names added to the SCAR Composite Gazetteer of Antarctica since the publication of the CGA (March 1998) and the Supplement (August 2000)

What's new in the CGA

Shanghai, July 2002

The SCAR Composite Gazetteer of Antarctica, CGA, was edited in March 1998 and copies of it were made available to the national delegations during the SCAR meeting held in Concepción.

A new publication, the Supplement to the First Edition, aimed at the updating of the CGA, was prepared for the discussion to be held at the Tokyo's SCAR meeting and was edited in August 2000.

Following the publication of the Supplement new data or amendments to the existing data have been collected, as usual, from the SCAR countries and added to the database.

In the meantime the CGA web site, www.pnra.it/SCAR_GAZE, was maintained and is being quarterly updated.

Scope of the present document is to list all additions/amendments intervened **after August 2000** and therefore not contained in the Supplement.

The contributions consist in the following.

- **242 new features:** 14 introduced by Argentina, 48 by Bulgaria, 1 by Canada, 5 by the General Bathymetric Chart of the Oceans (GEBCO), 2 by Germany, 6 by Great Britain, 14 by Italy, 12 by New Zealand, 2 by Russia and 138 by USA;
- **235 new-adopted names:** 5 adopted by Argentina (2 already named by GBR-USA, 2 already named by CHL-GBR-USA and 1 already named by CHL-GBR-RUS-USA), 4 adopted by GEBCO (already named by USA), 81 adopted by New Zealand (already named by USA) and 145 adopted by USA (143 already named by NZL and 2 already named by AUS);
- **46 changes in the feature reference number:** 22 affecting Argentina, 2 Australia, 3 Chile, 2 Norway, 2 New Zealand, 2 Poland, 10 Russia and 3 affecting USA;
- **14 changes in name:** 2 received from Argentina, 2 from Australia, 3 from Bulgaria, 1 from Spain, 1 from GEBCO, 1 from Great Britain, 3 from New Zealand and 1 from USA;
- **20 corrections of co-ordinates:** 10 received by Argentina, 1 by Australia, 2 by Great Britain, 4 by New Zealand, 1 by Poland and 2 by USA.
- **3 names deleted:** 1 by Argentina and 2 by New Zealand.

Table 1 lists, in alphabetical order, all the names affected by a revision, the third column adding some detail on the kind of changes.

Table 2 lists the same names but presented differently, in multi-tabular form, to clarify the category of the entry (new feature, change in co-ordinate, altered name, etc.).

R. Cervellati, M.C. Ramorino

July 2002

Table 1 - What's new in the CGA, alphabetical order

Name	Country	Notes	Ref. n.	Latitude	Longitude
Abenante, cabo	ARG	new feature	17243	77°40'S	41°58'W
Ackley Point	NZL	new name, feature already named by USA	17016	77°47'S	166°55'E
Ackley Point	USA	new feature	17016	77°47'S	166°55'E
Active, estrecho	ARG	co-ordinates amended	47	63°24'S	56°10'W
Acuña, islote	ARG	change in ref. n. (from 51) and co-ordinates	49	60°46'S	44°36'W
Acuña, punta	ARG	new feature	17244	68°08'S	67°08'W
Adams, nunatak	ARG	new name, feature already named by GBR and USA	58	71°44'S	68°34'W
Ader, monte	ARG	new name, feature already named by GBR and USA	79	64°10'S	60°31'W
Ageno, punta	ARG	new feature	17245	68°07'S	67°13'W
Agrimbau, punta	ARG	new feature	17246	64°08'S	62°05'W
Agudo, pico	ARG	new name, feature already named by CHL, GBR and USA	13100	66°02'S	65°18'W
Ainley Peak	USA	new name, feature already named by NZL	16796	77°30'S	169°02'E
Alaggia, islote	ARG	new feature	17247	64°34'S	62°47'W
Albornoz, punta	ARG	change in ref. n. (from 3431)	17241	73°17'S	60°20'W
Alcorta Rocks	NZL	new feature	17017	77°30'S	166°22'E
Alcorta Rocks	USA	new name, feature already named by NZL	17017	77°30'S	166°22'E
Alegre, punta	ARG	new feature	17248	68°13'S	67°03'W
Alejandro, cabo	ARG	new name, feature already named by CHL, GBR, RUS and USA	203	66°44'S	62°37'W
Allen Rocks	NZL	new feature	17018	77°33'S	169°09'E
Allen Rocks	USA	new name, feature already named by NZL	17018	77°33'S	169°09'E
Alley Glacier	USA	new feature	17019	79°58'S	158°05'E
Almendra, punta	ARG	co-ordinates amended	258	63°51'S	59°24'W
Almonacid, punta	ARG	change in ref. n. (from 4667)	17242	72°17'S	60°42'W
Alpheratz, Mount	GBR	co-ordinates amended	265	70°59'S	66°59'W
